Fullstack web developer with a strong background in sales and account management who recently earned a certificate in full stack development from the University of Washington. Experienced in highly communicative team environments, while also being independently responsible for timelines and project completion. Leveraged interpersonal skills during bootcamp to provide support to team members and maintain drive toward completing all group project requirements. Excited to step into a new field and use both tenured social and newly acquired technical skills to help your team to continue to develop innovative solutions.
